Professional Summary

Results-driven Mobile App Developer with over 4 years of experience in designing, developing, and deploying 30+ production-ready applications. Skilled in Flutter, Android, and modern architectural patterns such as MVVM and Clean Architecture. Adept at delivering scalable, high-performance solutions and integrating advanced features to enhance user experience. Proven ability to lead projects from concept to launch in fast-paced environments.

Professional Experience

Android Developer · Biztoso Technology Private Limited

Bangalore, India · Oct 2025 - Present

- Planned, developed, and maintained high-performance Android applications using Kotlin and Java.
- Implemented MVVM architecture, Clean Code principles, and modular app structures to ensure scalability and maintainability.
- Utilized Android Jetpack components such as LiveData, ViewModel, Navigation, and Room for robust app development.
- Integrated deep linking for enhanced navigation and user engagement.
- Published and managed apps on Google Play Store, overseeing updates and user feedback.

Mobile App Developer · Saturncube Technology

Ahmedabad, India · Oct 2024 - Oct 2025

- Designed and developed cross-platform mobile applications using Flutter (Dart) and native Android.
- Built scalable, high-performance apps following MVVM architecture, Clean Architecture, and SOLID principles.
- Implemented real-time features using Firebase Firestore, Realtime Database, and Socket.io.
- Integrated payment gateways, in-app purchases, and secure transaction flows to enhance app functionality.

Mobile App Developer · Myriad Solution

Ahmedabad, India · Aug 2023 - Aug 2024

- Developed cross-platform mobile applications using Flutter (Dart) for Android and iOS.
- Integrated REST APIs, Firebase, and third-party SDKs to enhance app capabilities.
- Debugged and resolved crashes using Flutter DevTools, Firebase Crashlytics, and log analysis, improving app stability.

Mobile App Developer · iAppstack Solution

Ahmedabad, India · Jan 2022 - Mar 2023

- Created and developed mobile applications using Flutter (Dart) and native Android.
- Built scalable, high-performance apps utilizing MVVM architecture and Clean Architecture.
- Implemented push notifications and deep linking using Firebase Cloud Messaging (FCM).
- Published and maintained apps on Google Play Store, ensuring ongoing support and updates.

Projects

Biztoso · <https://play.google.com/store/apps/details?id=com.biztoso.app>

Jan 2026 - Present

Kotlin Jetpack MVVM

- Integrated REST APIs for home, user profiles, chat, and business analytics modules.
- Designed and implemented real-time socket-based chat, increasing user engagement and reducing message latency.
- Led migration from XML to Jetpack Compose, reducing UI code complexity and improving rendering performance.

Figtion App · <https://play.google.com/store/apps/details?id=com.figtion.figtion>

Dec 2026 - Dec 2026

Flutter AR/VR Unity

- Integrated Unity module to enable interactive features and enhance user experience.
- Implemented secure and optimized REST API integrations for data synchronization and user authentication.
- Diagnosed and resolved critical issues to improve app stability, performance, and usability across devices.

Drive Now · <https://play.google.com/store/apps/details?id=com.freedomride>

Dec 2026 - Dec 2026

[Flutter](#) [Razorpay](#)

- Developed interactive and responsive UI/UX using modern Android/Flutter components, ensuring seamless navigation and enhanced user engagement.
- Integrated secure payment gateways (UPI, cards, wallets) to support real-time transactions and multiple payment options.
- Built booking and trip management features, including scheduling, real-time availability, booking history, and instant alerts.

Education

Bachelor of Computer Application · Computer Applications · [Gujrat University](#) 5.9 · [Aug 2021](#) - [Apr 2024](#)

HSC · [Gujrat Board](#) 6.4 · [Jun 2019](#) - [Jun 2021](#)

SSC · [Gujrat Board](#) 6.4 · [Jun 2017](#) - [Apr 2019](#)
